

I have been made aware of something the FCC is proposing that will have a negative impact on the only radio station I listen to - K-LOVE. This is a radio station whose message is positive and encouraging to thousands of listeners everyday. Dozens of people of all ages and situations testify daily to the impact this station has on their lives. It is a station parents can encourage their children and teens to listen to without fear of what is being said or promoted. It is crucial to the moral fiber of our country to keep K-LOVE and other stations like it on the air. It is my fervent hope that the FCC will reconsider its position on expanding LPFM service.
